

CALIFORNIA INSTITUTE OF TECHNOLOGY

APPLICATION DEADLINES

Application deadlines vary by department (see below). Applications received after the deadline may be considered, but late applicants may be at a disadvantage in terms of being admitted and/or receiving financial aid. Caltech conducts admissions once each year and applicants are considered for admission to the fall term only.

The length of time it takes for a department to review an application depends upon departmental procedures and faculty schedules. Most admission decisions will be made by the middle of March and according to agreement with the Council of Graduate Schools, students have until April 15 to reply to our offer of admission.

<u>Department (All degree programs)</u>	<u>Deadline Dates for Applying</u>
Aeronautics	January 15
Aerospace Engineering	January 15
Applied and Computational Mathematics	January 1
Applied Mechanics	January 1
Applied Physics	January 15
Astrophysics	January 15
Behavioral and Social Neuroscience	December 15
Biochemistry and Molecular Biophysics	January 1
Bioengineering	January 1
Biology	January 1
Chemical Engineering	January 1
Chemistry	January 1
Civil Engineering	January 1
Computation and Neural Systems	January 1
Computer Science	January 1
Control and Dynamical Systems	January 15
Electrical Engineering	January 15
Environmental Science and Engineering	January 1
Geological and Planetary Sciences	January 1
Materials Science	January 15
Mathematics	January 15
Mechanical Engineering	January 1
Physics	January 1
Social Science	December 15
